ORANGE COUNTY WATER DISTRICT
ORANGE COUNTY'S GROUNDWATER AUTHORITY

November 2, 2020

Dear Neighbor,

The Orange County Water District (OCWD; the District) manages the groundwater basin underlying north and central Orange County that provides 77% of the water supply to 2.5 million people. It owns and operates monitoring wells throughout the region, which measure groundwater levels and allow for the collection of water samples. The wells provide the District with valuable data to assess aquifer levels and to maintain a high-quality water supply.

OCWD will soon begin construction on its SA-5 Monitoring Well Destruction Project. The project includes the decommissioning of a monitoring well that has reached the end of its lifespan, located on the west sidewalk of Brookhurst Street approximately 300 feet south of Yorktown Ave. (see map on reverse for project site labeled SA-5 location). Construction is anticipated to begin on or about November 9, 2020 and last approximately one week. Anticipated construction hours are Monday through Friday from 7 a.m. – 5 p.m. OCWD is committed to completing this project as quickly as possible. However, this timeframe could change due to inclement weather or other unforeseen circumstances.

Please expect the following near the project area:

- Closure of approximately 100 feet around the project site on the west sidewalk of Brookhurst Street
- No parking on Brookhurst St. for approximately 100 feet around the project site
- An increase in noise, dust and construction equipment

OCWD's construction management team will closely monitor construction activities to minimize impacts to the community as much as possible. OCWD has obtained all necessary permits and approvals for this project and is complying with applicable ordinances. For your safety, please keep away from construction equipment and obey all local laws and ordinances.

Thank you for your patience as OCWD works to ensure a continued safe and reliable water supply. For more information or project updates, please call the OCWD Construction Hotline at (714) 378-8244, email info@ocwd.com, visit www.ocwd.com/news-events/construction-updates, or follow us on Twitter @ocwdwaternews. Si tiene preguntas en Español, favor de llamar a (714) 378-8244.

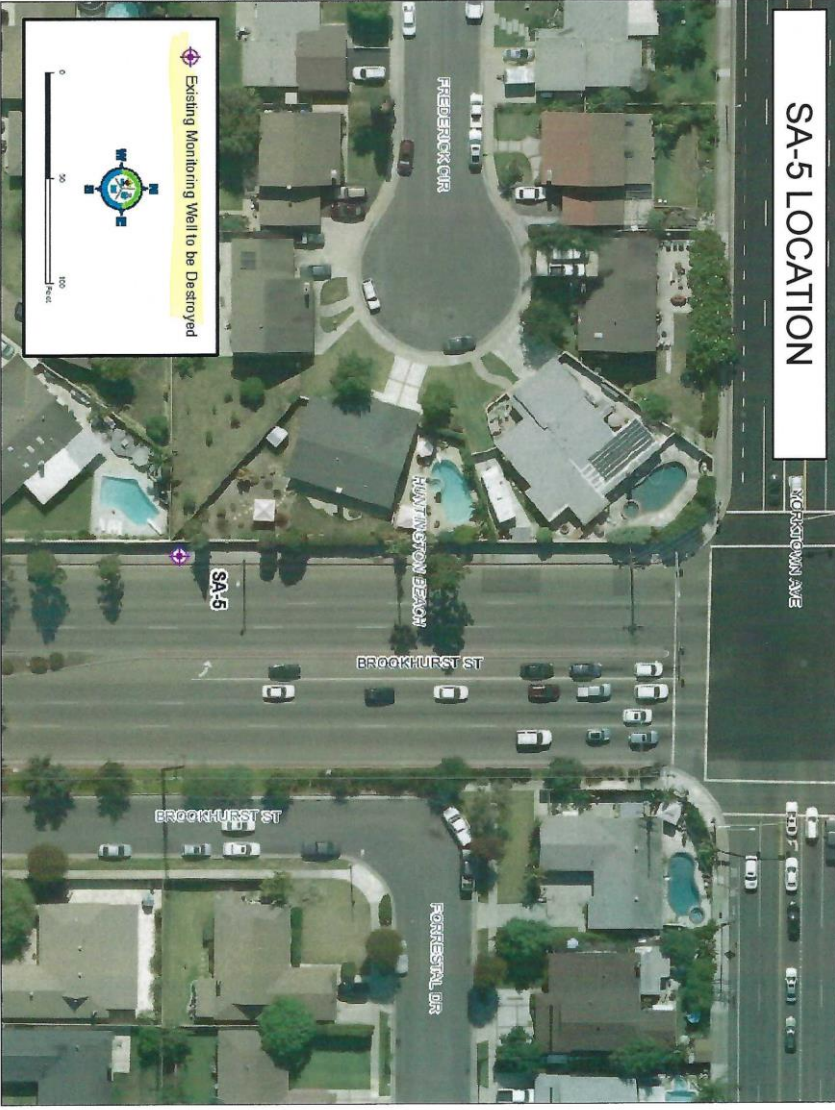

Sincerely,

Kira Erquiaga
Senior Communications Specialist
