PLEDGE OF ALLEGIANCE

ROLL CALL

EMPLOYEE OF THE QUARTER AWARD TO GENERAL MANAGER'S OFFICE/EXECUTIVE ASSISTANT JANICE KOVACEVIC

ITEMS RECEIVED TOO LATE TO BE AGENDIZED

RECOMMENDATION: Adopt resolution determining need to take immediate action on item(s) and that the need for action came to the attention of the District subsequent to the posting of the Agenda (requires two-thirds vote of the Board members present, or, if less than two-thirds of the members are present, a unanimous vote of those members present.)

VISITOR PARTICIPATION

Time has been reserved at this point in the agenda for persons wishing to comment for up to three minutes to the Board of Directors on any item that is not listed on the agenda, but within the subject matter jurisdiction of the District. By law, the Board of Directors is prohibited from taking action on such public comments. As appropriate, matters raised in these public comments will be referred to District staff or placed on the agenda of an upcoming Board meeting.

At this time, members of the public may also offer public comment for up to three minutes on any item on the Consent Calendar. While members of the public may not remove an item from the Consent Calendar for separate discussion, a Director may do so at the request of a member of the public.

RESOLUTION NO. 26-6-106

APPROVING CONTINUED JOINT FUNDING AGREEMENT WITH USGS FOR SANTA ANA RIVER STREAMGAGING SERVICES

WHEREAS, pursuant to Resolution No. 799 adopted November 20, 1963, OCWD entered into a Cooperative Program Agreement with the U.S. Department of the Interior Geological Survey (USGS) to conduct streamgaging services along the Santa Ana River; and

WHEREAS, such program has remained in force, with modifications, since its inception pursuant to actions taken by this Board; and

WHEREAS, the Water Issues Committee of this Board has recommended approval of continuance of such cooperative program under the USGS Joint Funding Agreement for Water Resources Investigations to conduct streamgaging of the Santa Ana River below Prado Dam and Santiago Creek at Santa Ana for the period October 1, 2026 to September 30, 2027, at a cost to OCWD of \$56,090;

NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby approve the Joint Funding Agreement with USGS as described herein; and, upon approval as to form by District General

Counsel, its execution by the District officers is authorized, and payment of \$56,090 to the USGS for OCWD's share of costs for these services is authorized.

22. Agreement with Living Water Industries LLC Dba Living Water Well Drilling for Destruction of Monitoring Wells OM-2 AND OM-2A
-

RESOLUTION NO. 26-6-107

APPROVING AGREEMENT WITH LIVING WATER INDUSTRIES, LLC DBA LIVING WATER WELL DRILLING FOR THE DESTRUCTION OF MONITORING WELLS OM-2 AND OM-2A

RESOLVED, that issuance of an Agreement is authorized with Living Water Industries, LLC dba Living Water Well Drilling in an amount not to exceed \$41,500 for the destruction of monitoring wells OM-2 and OM-2A; and upon approval as to form by District General Counsel, its execution by the General Manager is authorized.

23. Authorize Issuance of Requests for Proposals for a New Laboratory Information Management System and Project Management Services Consultant
-

RESOLUTION NO. 26-6-108

APPROVING ISSUANCE OF REQUESTS FOR PROPOSALS FOR A NEW LABORATORY INFORMATION MANAGEMENT SYSTEM AND PROJECT MANAGEMENT SERVICES CONSULTANT

RESOLVED, that issuance of a Request for Proposals (RFP) for the procurement and implementation of a replacement Laboratory Information Management System (LIMS) platform and an RFP for Project Management Services (PMS) consulting support to assist the District with project planning, requirements development, vendor selection, implementation oversight, system validation, workflow optimization, and overall project coordination is authorized.

24. Contract No. TUS-2022-1: Change Order Ratification, Amendment to Butier and Budget Increase
-

RESOLUTION NO. 26-6-109

AUTHORIZING CHANGE ORDER RATIFICATION AND AMENDMENT TO BUTIER AND BUDGET INCREASE

WHEREAS, the District staff has reported that construction of the PFAS water treatment plant at the City of Tustin Main Street Plant, which treats four wells, is complete and producing water; however, some minor work remains to be completed.

WHEREAS, there have been five change orders issued since the last Board ratification, which have depleted the project contingency budget.

WHEREAS, the Water Issues Committee of this Board has recommended ratifying change orders 6-10, issuance of Amendment No. 4 to Agreement No. 1558 with Butier Engineering Inc. for additional

construction management and inspection services in the amount of \$10,000 and increasing the project budget to \$33,859,970.

NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby resolve as follows:

Section 1: Authorize issuance of Change Order Nos. 6-10.

Section 2: Authorize Amendment No. 4 to Agreement No. 1558 with Butier Engineering Inc. for construction management and inspection services in the amount of \$10,000.

Section 3: An increase to the project budget of 1.1 million for a total project budget in the amount of \$33,859,970 is authorized.

28. Additional Funds for Operating Costs of the Recharge Operations Facilities

RESOLUTION NO. 26-6-11
APPROVING ADDITIONAL FUNDS FOR OPERATING COSTS OF THE RECHARGE
OPERATIONS FACILITIES

WHEREAS, the 2025-26 fiscal year budgeted fuel purchases, electrical costs, and general maintenance expenses are based upon average expenses.

WHEREAS, this season’s rainfall is above average which results in a need for additional funds to cover electricity for pump stations.

WHEREAS, increases in fuel procurement and more than average maintenance repairs require funds; NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby resolve as follows:

Section 1: Issuance of additional funds in the amount of \$17,000 to the Recharge Operations general fund account line item 1060.51520 for on-road fuel is authorized.

Section 2: Issuance of additional funds in the amount of \$43,000 to the Recharge Operations general fund account line item 1060.51521 for off-road fuel is authorized.

Section 3: Issuance of additional funds in the amount of \$1,330,000 to the Recharge Operations general fund account line item 1060.51521 for electrical utilities is authorized.

Section 4: Issuance of additional funds in the amount of \$31,000 to the Recharge Operations general fund account line item 1060.57016 for general maintenance is authorized.

RESOLUTION NO. 26-6-112

APPROVING ADDITIONAL FUNDS FOR REFURBISHMENT AND REPLACEMENT FUND R25032:
RECHARGE OPERATIONS INFRASTRUCTURE AND EQUIPMENT REPAIR

RESOLVED, that additional funds in the amount of \$110,000 for R&R account R25032 for Recharge Operations unforeseen repairs to infrastructure and equipment are hereby approved.

30. American Water Chemicals Amendment 8 to Agreement 1279 for the Purchase of Antiscalant

RESOLUTION NO. 26-6-113

AUTHORIZING AMENDMENT TO AGREEMENT WITH AMERICAN WATER CHEMICALS, INC.,
FOR THE PURCHASE OF REVERSE OSMOSIS (RO) ANTI SCALANTS IN THE GWRS REVERSE
OSMOSIS (RO) TREATMENT FACILITY

WHEREAS, pursuant to Resolution No. 17-12-161 adopted December 20, 2017, and subsequently amended, OCWD awarded Agreement No. 1279 to American Water Chemicals for supply and delivery of Reverse Osmosis (RO) antiscalant at \$0.79/lb.; and

WHEREAS, the Administration and Finance Issues Committee has recommended issuance of Amendment No. 8 to such Agreement for the supply and delivery of antiscalant at \$1.22/lb., through June 30, 2027;

NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby authorize issuance of Amendment No. 8 to Agreement No. 1279 with American Water Chemicals, Inc., as outlined herein; and, upon approval as to form by District General Counsel, its execution by the District officers is authorized.

31. Amendment No.1 to Chemical Agreements for Supply and Delivery of Chemicals

RESOLUTION NO. 26-6-114
APPROVING CHEMICAL CONTRACTS FOR WATER TREATMENT SYSTEMS

WHEREAS, pursuant to Resolution No. R25-6-101 adopted June 18, 2025, OCWD authorized Agreements to vendors for the purchase of water treatment chemicals; and

WHEREAS, the Administration and Finance Issues Committee of this Board has recommended the following Amendments to Chemical Vendors for the supply and delivery of water treatment chemicals:

- 1) Amendment No.1 to Agreement No. 1740 with Univar, USA for the supply and delivery of sulfuric acid at \$424/ton from July 1, 2026 to June 30, 2027;
- 2) Amendment No.1 to Agreement No. 1741 with Univar, USA for the supply and delivery of hydrogen peroxide at \$511/ton from July 1, 2026 to June 30, 2027;
- 3) Amendment No.1 to Agreement No. 1742 with Lhoist North America for the supply and delivery of hydrated lime at \$480.35/ton from July 1, 2026 to June 30, 2027;
- 4) Amendment No.1 to Agreement No. 1743 with Brenntag Pacific for the supply and delivery of citric acid at \$1,330/ton from July 1, 2026 to June 30, 2027;
- 5) Amendment No.1 to Agreement No. 1744 with JCI Jones Chemicals, Inc for the supply and delivery of sodium hypochlorite at \$1.81/gal. from July 1, 2026 to June 30, 2027;
- 6) Amendment No.1 to Agreement No. 1745 with Brenntag Pacific for the supply and delivery of caustic soda at \$868/ton from July 1, 2026 to June 30, 2027;

NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby approve the Agreements for the aforementioned chemical contracts as outlined herein are approved; and, upon approval as to form by District General Counsel, execution of the contracts accordingly by the District officers is authorized.

32. Seal Beach Well Construction Loan Agreement Amendment

RESOLUTION NO. 26-6-115
APPROVING SEAL BEACH WELL CONSTRUCTION LOAN AGREEMENT AMENDMENT

WHEREAS, pursuant to Resolution No. 25-2-30, OCWD approved a loan Agreement with Seal Beach for an amount of \$4.45 million;

WHEREAS, after receiving construction bids in July, which were much higher than the loan amount, the award window of time expired and the contractor stated market conditions changed and would not extend their bid and;

WHEREAS, the Administration and Finance Issues Committee of this Board has recommended an amendment to the Agreement with the City of Seal Beach for a new total of \$8,066,792.

NOW, THEREFORE, the Board of Directors of the Orange County Water District does hereby approve the aforementioned amendment as outlined herein; and, upon approval as to form by District General Counsel, execution of the contracts accordingly by the District officers is authorized.

Subject: 2027 CHILDREN'S WATER EDUCATION FESTIVAL

SUMMARY

Planning for the annual Children's Water Education Festival (Festival) is underway for 2027, marking the program's 30th anniversary of educating Orange County Students about water. Each year, the Board-approved program educates thousands of Orange County students through hands-on learning experiences. Oak Canyon Park continues to be the most suitable location for the Festival, providing ample space, parking, and comprehensive services through vendor James Event Productions.

Attachment: James Event Festival Contract

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

- 1) Host the 2027 Festival at Oak Canyon Park on April 14-15; and
- 2) Approve the selection of James Event Productions as the venue and event service provider for the 2027 Children's Water Education Festival for an amount not to exceed \$205,110; and
- 3) Authorize the general manager to negotiate a new agreement with James Events Productions and to approve additional \$10,000 to James Events Productions for additional rentals should attendance exceed forecasted numbers; and
- 4) Authorize the general manager to approve an additional \$25,000 to James Events Productions for a rain contingency plan, should extreme weather warrant it.

DISCUSSION/ANALYSIS

The Children's Water Education Festival is an annual educational program established in 1997 to teach Orange County students about the importance of water. Since its inception, more than 163,000 students have participated in the Festival. The free event

is open to third, fourth, and fifth grade classes throughout Orange County.

The \$205,110 represents the contract amount of the Children's Water Education Festival and is budgeted in the OCWD's approved FY 2026-2027 budget. The venue and rental contracts are the event's two largest expenses. The estimated cost reflects an increase of \$5,974, or approximately 3%, compared to the \$199,136 approved for the 2026 Festival. The agreement is consistent with the contract approved by the Board and reviewed by legal for the 2026 Festival. The contract amount includes estimated costs for rental equipment that account for anticipated market-driven increases, as final vendor pricing remains subject to change. Sponsorships, donations, and grants offset the District's cost.

Oak Canyon Park, located in Silverado, is owned and operated by James Event Productions, who have provided all-inclusive event rentals, services and planning to the Festival for over 20 years. The park was approved by the Board in 2024 after a thorough review of 50+ locations. James Events has successfully hosted the Festival for the past two years and has proven to be a reliable and effective venue partner. Since returning to Oak Canyon Park, the Festival has continued to receive positive feedback from teachers, presenters, volunteers, and sponsors during the Festival and through post-event surveys.

Oak Canyon Park has the space to host 7,500+ students and 1,600+ teachers, presenters, and volunteers in a beautiful park setting with convenient and ample parking. The James Events cost includes facility needs, such as the outdoor event space, multiple parking lots, staffing, and maintenance costs. The cost also encompasses event service needs, including rentals (tents, tables, chairs, golf carts, AV, generators, etc.), portable restrooms, security and first aid services, logistical support and coordination throughout the year-long planning effort, and onsite event staff during the weeklong set-up, teardown, and event days. The estimated contract amount reflects current pricing assumptions for rental equipment and services.

Staff reviewed the academic schedules of more than 100 public schools from across Orange County, as well as previously attending private schools to identify dates that maximize attendance and minimize conflicts from all board member service areas. The available date at Oak Canyon Park with no school district spring break conflicts is April 14-15, 2027.

Subject: AGREEMENT TO BROWN AND CALDWELL INC. FOR TECHNICAL SUPPORT ON THE GWRS MICROFILTRATION AND REVERSE OSMOSIS OPERATIONS (MF/RO)

SUMMARY

Staff recommends renewal of an annual agreement with Brown and Caldwell (B&C) for support of the operation of the GWRS microfiltration (MF) and reverse osmosis (RO) operations. B&C specializes in MF and RO membrane facility design, operator training, and technical process consulting in FY26-27. In addition, the current agreement requires an increase of \$33,000 for additional requested work.

Attachments:

- Sulfuric Acid evaluation proposal dated June 18, 2026
- Brown and Caldwell letter and proposal dated June 24, 2026

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Authorize issuance of Amendment No. 1 to Agreement 1782 with Brown and Caldwell for an increase of \$33,000 and an amount not to exceed \$158,000; and
2. Renew the annual agreement with Brown and Caldwell Inc. for an amount not to exceed \$125,000 to provide consulting services on a time and material basis for the GWRS MF and RO membrane processes through August 31, 2027.

BACKGROUND/ANALYSIS

Separation Processes Inc. (SPI) is a consulting firm with over 40 years of experience specializing in the application of membrane separation processes, such as microfiltration, ultrafiltration and reverse osmosis for water, seawater and wastewater treatment. SPI was acquired by the large water and wastewater consulting company

Brown and Caldwell in mid-2025. Brown and Caldwell was part of the original Groundwater Replenishment System design team along with CDM Smith and Tetra Tech. SPI and its founding owners have provided membrane consulting services for the OCWD since 1976, during the early days of the WF-21. Over the years, the professional association has proven to be valuable to the District and has contributed to the success of our membrane treatment technology evaluations and our full-scale investments at the GWRS. The value of an ongoing relationship with the former SPI, now part of Brown and Caldwell, over the next year continue to focus on the effect of the new GWRS feedwater quality as result of now taking on Orange County Sanitation District (OC San) Plant Number 2 flows. Those flows are higher in salinity and organics which will require an adjustment to historical operational parameters. Brown and Caldwell also provide outside industry perspective on the use of various antiscalant chemicals, membrane cleaning chemicals and operational experience at other large scale plants using membrane technology. Their assistance will continue to be used to help generate data formats and reports to allow OCWD to be in compliance with new Division of Drinking Water (DDW) Groundwater Recharge Reuse Project (GRRP) regulations for monthly reporting on plant performance to show log virus removal credits.

The scope of work will include reporting operational results and through discussion with staff, evaluating MF and RO performance on a bimonthly basis or as requested by District staff. This will be especially critical in the upcoming year to continue to evaluate the effect on operational parameters resulting from the new feed water quality from the OC San due to the ongoing inclusion of secondary effluent from their Plant Number 2 facility. This includes evaluating the long term life and replacement interval of the new polyvinylidene fluoride (PVDF) ultrafiltration membranes installed as part of the GWRS Final Expansion. Other critical services include specialized training of membrane process for operators, working with staff to review ongoing efforts to evaluate new antiscalant chemicals, and other procedures intended to extend the life of membranes while also improving their rates of production. Finally, Brown and Caldwell developed and maintains an online Power Bi based online website that allows OCWD to access membrane performance data with normalization of key data. This calculation of data is also presented in graphical trends via an interactive dashboard and includes projections for RO membrane cleanings. Current agreement number 1782 with Brown and Caldwell for these services was approved by the Board for a period of one year in August 2025.

As part of the current agreement number 1782 for membrane process technical support services with Brown and Caldwell in the amount of \$125,000, additional work was performed that now requires an amendment to increase the contract amount by \$33,000. This increase was due to the District requesting additional services to analyze a potential modification to the existing GWRS treatment process to improve removal of a contaminant known as methylene chloride. Brown and Caldwell prepared a technical memo analyzing a modification to reduce the existing RO feed water pH from 6.9 to 6.5 to increase methylene chloride removal by allowing for a higher percentage of flows to be sent through the decarbonation process. The current GWRS treatment process involves most of the RO product water to bypass the decarbonation process to meet finished product water corrosion limits. Staff are requesting an amendment to agreement number 1782 with Brown and Caldwell for a not to exceed total of \$188,000.

The existing agreement with Brown and Caldwell expires on August 31, 2026 and a renewal is being requested by staff. This is similar to prior years where a one-year renewal has been sought based a proposal received. Attached is the proposal for renewal of these services. Brown and Cadwell is uniquely qualified to provide these specialized consulting services. Their staff brings a wide range of knowledge and experience gained through their consulting work at many other membrane treatment facilities. Over the years this knowledge has proven to be beneficial in helping the District evaluate and stay on top of several MF and RO membrane issues. In addition, their scope of work provides staff training and independent review of various R&D efforts when required.

The contract would continue to be managed on a time and material basis with a not-to-exceed total. This format allows staff to control spending throughout the year and to make sure that all efforts are focused on the District's most urgent needs. Staff will continue to evaluate the scope and need for these services and depending on the workload of staff bring more of this work in-house where appropriate. Staff have budgeted \$125,000 for these services, which is equivalent to that budgeted last fiscal year with no increase in overall fee. Staff recommend renewal of the agreement with Brown and Caldwell for technical support of the GWRS MF and RO processes for another year.

PRIOR RELEVANT BOARD ACTIONS

8/20/14, R14-8-113 - Authorize issuance of Professional Service Agreement to Separation Processes Inc. for an amount not to exceed \$75,000 to provide consulting service on a time and material bases for the GWRS MF/RO membrane processes through August 31, 2015.

**Subject: AUTHORIZE PURCHASE ORDER TO INSIGHT PUBLIC SECTOR FOR
FHQ SCADA SERVER UPGRADE**

SUMMARY

The Recharge Operations SCADA (Supervisory Control and Data Acquisition) system currently consists of a patchwork of software and custom programming. An upgrade of the platform is underway to provide a modern, flexible, reliable, and cost-effective system. Upgraded server hardware is also required.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Authorize issuance of a Purchase Order to Insight Public Sector, Inc. for an amount not to exceed \$80,000 for the FHQ SCADA server upgrade; and increase the budget \$91,142 for a new total of \$360,000.

BACKGROUND/ANALYSIS

The Recharge Operations department at Field Headquarters (FHQ) relies on SCADA to efficiently monitor and manage the District's 30 surface water recharge facilities, including the average of 235,000 acre-feet of recharge water each year. SCADA systems are computer software-based systems used to control, monitor, and make changes to water treatment or other large operational systems. The FHQ SCADA system provides real-time and historical data on flow rates, water levels, and pump operations, enabling staff to make timely, informed decisions while maintaining compliance with regulatory requirements. The system also allows a smaller sized staff team to operate the facilities effectively, reduces overtime by supporting remote functions, and enhances operational reliability through centralized control and automated alerts. SCADA is critical for optimizing water recharge, protecting infrastructure, meeting regulatory compliance requirements, and ensuring sustainable management of OCWD's groundwater resources.

The current SCADA system at FHQ, an Aveva product (formerly Wonderware), has become increasingly difficult to support, requires extensive custom programming for updates, and demands more staff effort than originally intended. These challenges have

contributed to reduced system reliability. Migrating the District’s SCADA system from Aveva to Ignition offers a modern, flexible, and cost-effective solution. In October 2025, the District awarded the scope of work to upgrade the SCADA system to KDC Systems. While executing this work, staff and the consultant have determined that the existing server hardware is near the end of its life so proactive replacement at this time is optimal.

Staff received quotes for new server hardware from three vendors as summarized in Table 1. There is currently high market price volatility for computing hardware, so the vendors are not holding their quoted prices for as long as the District’s process for approving and issuing a purchase order. Therefore, staff recommends approval of a purchase order up to approximately 20% above the quoted amount. The project budget is summarized in Table 2.

Table 1: Server Hardware Quotes

The Pinnacle Group – HP	\$ 71,853.25

Accordingly, staff recommends authorization of a Purchase Order to Insight Public Sector for an amount not to exceed \$80,000 for the FHQ SCADA server upgrade. Staff also recommends approval of additional R&R funding in the amount of \$91,142 for account R24030 for a total budget of \$360,000.

**Subject: UPGRADE THE EXISTING DELTA V DISTRIBUTED CONTROL SYSTEM
FOR THE GWRS AND GAP FACILITIES**

SUMMARY

The Orange County Water Currently operates a Delta V Distributed Control System (DCS) type of Supervisory Control and Data Acquisition (SCADA) computer system, which is the control backbone for the Groundwater Replenishment System (GWRS). Periodic hardware and software updates are required to maintain the efficient and reliable operation of this control system. A major upgrade to the Delta V hardware and software is currently required.

Attachment: Caltrol Proposal dated June 23, 2026

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Increase project budget by \$175,000 for a total project budget of \$675,000; and
2. Authorize issuance of a purchase order to Caltrol in the amount of \$610,722 for services to replace, program, test and certify the Delta V DCS system.

BACKGROUND/ANALYSIS

The Orange County Water District has operated its Delta V DCS since initial commissioning of the GWRS in 2008. (The GWRS design documents refer to this software as a Process Control System or PCS, but DCS is the proper technical term for this type of SCADA system.) The DCS system was previously updated during the GWRS initial expansion in 2015. Since it has been eleven years since this last upgrade to Delta V hardware and software, it is again necessary to update the system to ensure continued reliability and security going forward. The Delta V DCS is supplied by the parent company Emerson. Staff sought pricing from Emerson's exclusive provider of Delta V DCS hardware and software, Caltrol.

As part of the scope of work to upgrade the Delta V DCS hardware and software, Caltrol will upgrade the existing Delta V System from version v14.LTS to version v16.LTS and AMS to version 15. Also as part of the system upgrade, Caltrol will install the Emerson Endpoint Security for Delta V Systems software which utilizes elements of the Trellix Endpoint Protection Suite to provide antivirus protection for Delta V system components which are already part of the system. Caltrol will be adding three new licenses for the Domain Controllers and the new Inmation server (Plantweb Optics) as part of the software upgrades.

In addition to software upgrades, Caltrol will also provide upgrades to key hardware components that support the Delta V system. This includes necessary upgrades to all Delta V operator workstation computers and programmer workstations. The following list is an overview of the hardware being replaced:

The upgrade of the Delta V DCS software and hardware is budgeted for fiscal year 2026-2027 in the Refurbishment & Replacement (R&R) budget under project R26009 in the amount of \$500,000. Due to current market price increases on computer components such as processors and servers, the original price quoted for the upgrades will exceed the budget of \$500,000. Staff is requesting an increase to R&R project budget R26009 in the amount of \$175,000 for a total budget of \$675,000. Staff also requests authorization of a purchase order in the amount of \$610,722 to Caltrol to provide software and hardware necessary to upgrade the current Delta V DCS.

Subject: AMENDMENT NO. 2 TO BENDER/CCP FOR GWRS PRODUCT WATER PUMP A01 VERTICAL TURBINE PUMP INSPECTION AND REHABILITATION

SUMMARY

The Groundwater Replenishment System (GWRS) Advanced Water Purification Facility (AWPF) consists of five 2,250 horsepower vertical turbine product water pumps. Four of the five pumps have been in service over ten years and are due for inspection and rehabilitation. These pumps are used to transfer GWRS product water from the AWPF site in Fountain Valley to the recharge basins in Anaheim. Total cost of repairs on product water pump A01 exceeded the previously approved budget.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Increase project budget by \$18,025 for a total project budget of \$499,429; and
2. Authorize issuance of Amendment No. 2 to Agreement 1776 with Bender/CCP for an amount not to exceed \$499,429.

BACKGROUND/ANALYSIS

The GWRS AWPF consists of five 2,250 horsepower vertical turbine pumps. These pumps are used to transfer GWRS product water from the AWPF site in Fountain Valley to four recharge basins in Anaheim (Kraemer, Miller, Miraloma, and La Palma) as well as to the mid basin injection well field site in Santa Ana consisting of five well sites. Three of the five vertical turbine pumps were put online in 2008 as part of the original GWRS project. One of the five was put into service in 2015 as part of the GWRS Initial Expansion (GWRSIE) and the last of the five pumps was put into service in 2023 as part of the GWRS Final Expansion (GWRSFE). These pumps are maintained as part of the GWRS asset management program, receiving regular preventative maintenance in keeping with manufacturer recommendations. The pumps include an online vibration and temperature monitoring system. In addition, each pump is tested for vibration and temperature analysis on a quarterly basis by an outside testing service. This has

allowed pump A01 to run successfully for over ten years, which is the normal recommended industry standard for performing a vertical turbine pump rehabilitation. Given the age of product water pump A01, staff has budgeted to have the pump removed and sent to a qualified pump repair shop for inspection and rehabilitation.

Staff advertised a Request for Proposals (RFP) to pull the motor and pump, inspect, and perform rehabilitation as needed as part of a preventative maintenance effort. Since the level of rehabilitation required for the pump will not be known until a detailed inspection is performed, the quote was formatted for a base bid to remove and reinstall the pump using an external crane service, inspect the pump, and replacement of key components such as the stuffing box bearing, and main mechanical seal. At the August 20, 2025 meeting the Board approved an agreement with Bender/CCP for rehabilitation of Product Water Pump A01.

Upon formal inspection of the pump by Bender/CCP, extensive damage was discovered with the pump's three impeller sections. Two impellers were found to be made of bronze material and one from high grade duplex stainless steel. The bronze impellers were found to have sections of the bronze metal material missing due to failure from corrosion which likely affected the pump's hydraulic performance. Also, the motor was found to need extensive rehabilitation of its components due to debris build up. Due to the damage discovered, two new impeller sections were ordered in high grade duplex steel material. In April 2026 the Board approved amendment #1 to existing agreement 1776 which increased the project budget to \$481,404. Staff is now requesting to increase the project budget again by another \$18,025 for a total project budget of \$499,429 via a second amendment to agreement 1776. This additional cost is due to additional work required upon re-installation of Product Water Pump A01 to adjust the mechanical seal and other minor field modifications.

**Subject: AMENDMENT NO. 2 TO BENDER/CCP FOR REVERSE OSMOSIS
TRANSFER PUMP B01 VERTICAL TURBINE PUMP INSPECTION AND
REHABILITATION**

SUMMARY

The Groundwater Replenishment System (GWRS) Advanced Water Purification Facility (AWPF) consists of six 1,250 horsepower vertical turbine pumps. Five of the six pumps have been in service over seventeen years and are due for inspection and rehabilitation. These pumps are known as the Reverse Osmosis Transfer Pumps (ROTP) and used to transfer water GWRS microfiltration product water from a holding tank to the reverse osmosis process. The total cost of repairs on ROTP A01 exceeded the previously approved budget.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Increase project budget by \$21,448 for a total project budget of \$318,339; and
2. Authorize issuance of Amendment No. 2 to Agreement 1778 with Bender/CCP for an amount not to exceed \$318,339

BACKGROUND/ANALYSIS

The GWRS AWPF consists of six 1,250 horsepower vertical turbine pumps called the Reverse Osmosis Transfer Pumps. These pumps are used to transfer GWRS product water from the microfiltration process, as it accumulates in a holding tank, to the reverse osmosis process building. These pumps provide enough pressure for the individual RO unit high pressure feed pumps suction requirements.

Five of the six vertical turbine pumps were put online in 2008 as part of the original GWRS project. One of the six was put into service in 2015 as part of the GWRS Initial Expansion (GWRSIE). These pumps are maintained as part of the GWRS asset management program, receiving regular preventative maintenance in keeping with manufacturer recommendations. The pumps include an online vibration and

temperature monitoring system. In addition, each pump is tested for vibration and temperature analysis on a quarterly basis by an outside testing service. This has allowed pump B01 to run successfully for over seventeen years, which is the normal recommended industry standard for performing a vertical turbine pump rehabilitation. OCWD staff has done repair work to fix scoring of the shaft. Given the age of RO transfer pump B01, staff has budgeted to have the pump removed and sent to a qualified pump repair shop for inspection and rehabilitation.

Staff advertised a Request for Proposals (RFP) to pull the motor and pump, inspect, and perform rehabilitation as needed as part of a preventative maintenance effort. Since the level of rehabilitation required for the pump will not be known until a detailed inspection is performed, the quote was formatted for a base bid to remove and reinstall the pump using an external crane service, inspect the pump, and replacement of key components such as the stuffing box bearing, and main mechanical seal. At the August 20, 2025 meeting, the Board approved an agreement with Bender/CCP for rehabilitation of ROTP B01.

Upon formal inspection of the pump, the main shaft was found to be in poor condition with pitting of the steel material and other signs of deterioration. The entire shaft required replacement with a newly fabricated main shaft assembly. In addition, the labor to fabricate a new main shaft was higher than that for normal pump rehabilitation work. Also, the motor was found to need more extensive rehabilitation than planned due to buildup of debris on key motor components. Due to the unforeseen damage discovered, the total cost to rehabilitate RO transfer pump B01 pump and motor has exceeded the \$150,000 budget. In April 2026 the Board approved amendment #1 to existing agreement 1778 which increased the project budget to \$296,891. Staff is now requesting to increase the project budget again by another \$21,448 for a total project budget of \$318,339 via a second amendment to agreement 1778. This additional cost is due to additional work required upon re-installation of RO Transfer Pump B01 to adjust the mechanical seal and other minor field modifications.

PRIOR RELEVANT BOARD ACTIONS

4/15/26: Increase project budget by \$146,891 and authorize issuance of Amendment number one to agreement 1778 to Bender/CCP for a total amount not to exceed \$296,891.

Subject: SA-2023-2 RATIFY CHANGE ORDER NO. 1, AUTHORIZE CHANGE ORDER NO. 2 AND REVISE BUDGET FOR SANTA ANA WELL NO. 31

SUMMARY

Pacific Hydrotech Corporation is nearing completion of construction of the City of Santa Ana PFAS Water Treatment Plant Well No. 31 Project, Contract SA-2023-2, and is preparing to commission the site in preparation for startup in Fall 2026. The City has requested addition of a new VFD during construction (reimbursed by the City) that will require additional work from the Contractor. Staff recommend ratifying Change Order No.1, authorizing Change Order No. 2, and increasing the project budget by \$585,625 to \$8,862,260 for additional work to be reimbursed by the City.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Ratify Change Order No. 1;
2. Authorize Change Order No. 2; and
3. Increase project budget by \$585,625 for a total project budget of \$8,862,260.

BACKGROUND/ANALYSIS

Construction of the City of Santa Ana PFAS Water Treatment Plant Well No. 31 is nearing completion and is expected to be online within the next several months. The project consists of pretreatment, two trains of Ion Exchange (IX) vessel systems, piping, upgraded mechanical and electrical components, and upgraded chemical dosing equipment. The project has experienced delays due to equipment procurement lead times, Southern California Edison (SCE) site upgrade designs, and City requested upgrades during construction. Staff has issued one change order to date in the amount of \$116,112. Change Order No. 1 was signed under the General Manager's signing authority and includes the items summarized below.

Change Order No. 1

1. Asbestos pipe removal per South Coast Air Quality Management District Procedure 5 work plan requirements (\$12,351; 0 calendar days);

2. Removal of additional pine tree within Caltrans right-of-way per City's request (\$21,441.82; 0 calendar days);
3. Removal of existing salt cabinet per the City's request (\$4,411.08; 0 calendar days);
4. Additional concrete encasement for underground piping beneath the cartridge filters (\$6,772.75; 0 calendar days);
5. Removal and replacement of existing concrete pad per City's request (\$4,521.80; 0 calendar days);
6. Rotation of influent tee on both piping trees that were Owner provided (\$3,423.60; 0 calendar days);
7. Modification of vessel piping due to spacing inconsistencies between contract documents and shop drawings (\$59,637.95; 0 calendar days);
8. Modification of piping tree anchors due to spacing inconsistency between contract documents and shop drawings (\$864.80; 0 calendar days);
9. Installation of additional bollards in front of Southern California Edison equipment (\$2,686.65; 0 calendar days)

In addition to the work above, the City has also requested installation of a new variable frequency drive (VFD) to control the well pump at the site. This work will require Change Order No. 2 in the amount of \$297,577, for the removal and disposal of the existing VFD, procurement and installation of a new VFD, and the delivery of spare parts to the City. Additionally, a second amendment in the amount of \$217,863 was issued to Stantec for additional design efforts for the new VFD, Southern California Edison field changes, and construction management services due to the contract duration extending beyond the original 300 days. The costs of Change Order No. 2 and the amendment to Stantec exceed the currently budgeted 5% contingency and require a budget increase. These costs will be reimbursed by the City upon completion of the project. Staff recommends ratification of Change Order No. 1, authorization of Change Order No. 2 in the amount of \$297,577, and increasing the budget by \$585,625 for a total project budget of \$8,862,260.

The proposed project budget for the City of Santa Ana PFAS Water Treatment Plant Well No. 31 is summarized in Table 1, below:

Subject: K-2026-1: MILLER BASIN CHECK VALVE REPLACEMENTS: AWARD CONSTRUCTION CONTRACT TO VICON ENTERPRISE

SUMMARY

Seven bids to construct the replacement of two check valves in the Miller Basin pump station were received on June 24, 2026. Staff recommend awarding the contract to the lowest responsive bidder, Vicon Enterprise.

Attachment: Affidavit for Publication of Notice Inviting Bids for Contract No. K-2026-1

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board Meeting:

1. Receive and file Affidavit of Publication of Notice Inviting Bids for Contract No. K-2026-1; and
2. Waive non-material defects, accept bid and award contract K-2026-1 to Vicon Enterprise Inc for an amount not to exceed \$320,500.

BACKGROUND/ANALYSIS

The Miller Basin pump station and associated piping were constructed in 1990. The 36-year-old pump station is used to dewater the basin for cleaning, to maximize storage for stormwater capture, and to comply with the joint use agreement between OCWD and Orange County Public Works. The pumping system includes two pumps with a 30-inch check valve on each one's discharge piping. The check valves ensure that water only travels away from the pumps, thereby preventing water from entering the basin in a way that would cause the pumps to spin backwards. The original ball check valves have failed, and staff have programmed downstream butterfly valves to behave like check valves. This interim solution introduces risk to the system because it requires valves to operate in a fashion for which they were not originally designed. It also relies on computer-initiated controls when a physical failsafe device is the industry standard. Additionally, it is placing undue wear and tear on the motor actuators of the butterfly valves and pumps.

Staff assembled a bid package of plans and specifications to replace the ball check valves with rubber flapper swing check valves, including the necessary piping adjustments to accommodate the new valve dimensions. The check valves are submerged in Miller Basin for at least half of the year, so the construction window to replace them will be relatively short. This window normally occurs in summer months when recharge basins can be drained for cleaning under lower Santa Ana River flow conditions. Lead time for procurement of large-diameter check valves could approach a year.

The Notice Inviting Bids was advertised on May 26, 2026, as documented in the attached affidavit. Seven bids were received on June 24, 2026, as summarized in Table 1.

Table 1: K-2026-1 Bid Summary

Bidder	Bid Amount
Vicon Enterprises	\$320,500
Big Ben Engineering	\$333,057
Ironwave Builders	\$334,000
Myers & Sons Construction	\$348,250
Innovative Construction Solutions	\$385,850
T.E Roberts	\$386,528
Pacific Hydrotech Corporation	\$462,000

Staff reviewed the bid of Vicon Enterprise Inc (Vicon), checked its references, and confirmed that its contractor’s license is current, active, and in good standing with the State of California. Wet signatures and a corporate seal were not used on some bid pages, however after staff consulted with general counsel the bid defects were found to be non-material. Staff recommends award of the construction contract to Vicon as the lowest responsive bidder for \$320,500.

This project is funded under the replacement & refurbishment (R&R) budget for fiscal year 2026-27. The proposed project budget is summarized in Table 2.

**Subject: REJECT BID PROTEST AND AWARD CONTRACT NO. GG-2025-1
GARDEN GROVE WELLS 22, 26, AND 27 PFAS WATER TREATMENT
PLANTS PROJECT TO PACIFIC HYDROTECH CORPORATION**

SUMMARY

A total of five construction bids were received on June 8, 2026, for the City of Garden Grove Wells 22, 26, and 27 PFAS Water Treatment Plants Project, Contract No. GG-2025-1 (the "Project"). Based on a review of the bids received, staff recommend awarding a contract to Pacific Hydrotech Corporation as the responsible bidder submitting the lowest responsive bid, in the amount of \$31,785,907. Staff also recommends establishing a total project budget of \$40,441,173 with \$300,000 to be reimbursed by Garden Grove and \$20,000,000 to be reimbursed by a State Water Resources Control Board grant for a total project cost to OCWD of \$20,141,173.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

1. Receive and file Affidavit of Publication of Notice Inviting Bids for Contract GG-2025-1, Garden Grove Wells 22, 26, and 27 PFAS Water Treatment Plants Project;
2. Ratify issuance of Addenda 1 & 2;
3. Reject the bid protest of Garney Pacific, Inc., and accept bid and authorize award of Contract GG-2025-1 to the lowest responsive bid and responsible bidder, Pacific Hydrotech Corporation in the amount of \$ 31,785,907; and,
4. Increase the Garden Grove Wells 22, 26, and 27 PFAS Water Treatment Plants

project budget to \$ \$40,441,173.

BACKGROUND/ANALYSIS

OCWD established the Garden Grove Wells 22, 26, and 27 PFAS Water Treatment Plants Project in 2024 with a preliminary budget of \$25 million based on the average cost per well at the time. This budget was carried over for subsequent budget years with the intent of finalizing the project budget at construction contract award. This strategy also recognized that construction bids have been significantly higher over the past few years making it difficult to estimate project costs.

Hazen and Sawyer began design in September 2024 and identified several necessary items during design that also caused a significant increase to project construction cost. These items include:

- PFAS treatment systems are for three of Garden Grove's high-production wells, requiring larger diameter pipe and a larger number of vessels per well than the average site;
- Due to insufficient space at Well 26, remote treatment is necessary 1,500 feet to the west of Well 26, at the rear of the City's existing fire station property;
- Extensive construction coordination with the Fire Department will be required to maintain full station functionality during construction;
- Pipeline installation in a high-traffic street near a Caltrans freeway on-ramp will extend construction duration;
- Installing a 300-foot-long micro-tunnel under a storm drain channel and large-diameter storm drain line for the water pipeline from the well to treatment site adds significant complexity; and
- Installation of a new disinfection system with containment building will be required due to remote treatment at the fire station property.

The complexity of the project combined with the piping and vessels for the high-capacity wells and additional infrastructure for remote treatment resulted in an Engineer's construction estimate of \$32 million – significantly higher than the original preliminary budget before the start of design. Fortunately, Staff has secured grant funding for this project that will reimburse up to \$20 million of the project cost.

The Project was advertised for bid on April 30, 2026, and Addenda No. 1 & 2 were issued to provide revised project plans and specifications and to provide responses to potential bidder's questions. Five construction bids were received on June 8, 2026, and a summary of these bids is shown below in Table 1.

**Table 1: GG-2025-1 Garden Grove Wells 22, 26, and 27

Bid Summary**

Contractor	Bid Price
Pacific Hydrotech Corporation	\$31,785,907
Garney Pacific, Inc.	\$33,432,959
Shimmick Construction Company, Inc.	\$33,470,425
Caliagua, Inc.	\$33,960,760
Mountain Cascade, Inc.	\$35,259,474

On June 11, 2026, Staff received a formal Bid Protest from Garney Pacific, Inc., (attached) of the apparent low bidder, Pacific Hydrotech Corporation. The Bid Protest asserted that Pacific Hydrotech Corporation was a non-responsive bidder due to: (1) a missing corporate seal on certain signature pages, (2) failure to identify a motor manufacturer on the Equipment and Material Source Information in the bid, (3) failure to provide three years of OSHA 300A forms, and (4) failure to submit a required acknowledgement of Addendum No. 2. On June 25, 2026, Pacific Hydrotech Corporation provided a response letter to the bid protest (attached), which included the last three years of OSHA 300A forms. The letter also included an acknowledgement of the Addendum No. 2 clarifying that while Pacific Hydrotech Corporation omitted the Addendum No. 2 certification form at the very end of Addendum 2 as an inadvertent clerical oversight, acknowledgment of the addendum was provided by Pacific Hydrotech Corporation in other locations of the bid forms opened on June 8, 2026, including an executed copy of the front page of Addendum No. 2, and confirming the addendum was fully incorporated into the price provided in the bid documents.

When a bid deviates from bid requirements, the District may reject the bid as nonresponsive or may waive non-material deviations in the bid and accept the bid. Any material deviations in the bid may not be waived, and require the bid to be rejected. In general, a deviation is considered “material” if it would provide a basis for the bidder to withdraw its bid pursuant to the Public Contract Code without forfeiting its bid bond, thus providing the bidder an unfair competitive advantage over other bidders.

Upon review of the Garney bid protest, Staff and District Counsel consider each of the identified deviations non-material and waivable in the discretion of the Board, specifically:

- (1) Consistent with the Corporations Code, failure to include a corporate seal does not defeat the validity or binding nature of a signature on a document. Pacific Hydrotech Corporation is still bound to its signature notwithstanding omission of the seals. Moreover, in reviewing the original bid submitted by Pacific Hydrotech, the corporate seals are embossed on the hard copy of the bid forms.
- (2) The Equipment and Material Source Information sheet in the bid documents requires each bidder to identify the manufacturer for certain bid components, including, as relevant here, for “Well Pump and Motor.” Pacific Hydrotech Corporation identified “Peerless” as the manufacturer for this line for both the pump and motor. This portion complies with bid requirements and is not a deviation.

- (3) Pacific Hydrotech Corporation provided its OSHA 300A forms following a request from the District. This deviation is immaterial and may be waived.
- (4) Pacific Hydrotech Corporation acknowledged Addendum No. 2 in its submitted bid and confirmed that its bid included consideration of Addendum No. 2, notwithstanding its failure to sign the Addendum No. 2 acknowledgement. Pacific Hydrotech Corporation remains bound to its bid including its acknowledgement of Addendum No. 2. This deviation is immaterial and may be waived.

Staff accordingly recommend that the Board reject the bid protest and waive the deviations in the bid to deem it to be responsive.

Staff reviewed the bid of the Pacific Hydrotech Corporation and found it to be responsive. Staff also checked Pacific Hydrotech’s references and confirmed that their contractor’s license is current, active, and in good standing with the State of California. Staff recommend awarding the construction contract to Pacific Hydrotech Corporation as the lowest responsible bidder that submitted a responsive bid in the amount of \$31,785,907.

The project budget for the Garden Grove Wells 22, 26, and 27 PFAS Water Treatment Plants Project, Contract No. GG-2025-1, including reimbursement by the City of Garden Grove for project elements not required by PFAS treatment, is summarized in Table 2 on the next page.

**Subject: GA-2024-1 NOTICE OF COMPLETION FOR GAP PROCESS BUILDING
EXTERIOR STAIR REPLACEMENT PROJECT**

SUMMARY

Vicon Enterprises has completed construction of the GAP Process Building Exterior Stair Replacement Project, Contract No. GA-2024-1. Staff recommends authorizing the filing of a Notice of Completion.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Accept completion of work and authorize filing a Notice of Completion for Contract No. GA-2024-1: GAP Process Building Exterior Stair Replacement Project.

BACKGROUND/ANALYSIS

The GAP Process Building (including the exterior stairs) was constructed in 1990. The existing stairs are located on the eastern exterior of the process building and were constructed of cast-in-place concrete, rising approximately 17 feet from the exterior finished grade to the roof of the building.

Many locations throughout the stair structure exhibited excess cracking and were showing signs of internal reinforcing steel corrosion. Landing/riser connections and railing post pockets are the primary areas where water had infiltrated the structure over time (30+ years) and caused the internal reinforcing steel to corrode, expand, and crack the concrete. Staff have performed repairs of the damaged areas in the past by applying mortar patches and steel/stainless steel plating to slow the deterioration of the structure. However, this localized repair approach was no longer sufficient to maintain the integrity of the cast-in-place concrete staircase, and the stairs were replaced before failure.

OCWD awarded Contract GA-2024-1 to Vicon Enterprises in June of 2025. Construction included demolition of the existing cast-in-place stair system and all deleterious and unsafe components. A new stair system was installed that is made of structural steel and aluminum components, which were anodized for a protective

coating. The work has been completed, and a Notice of Completion must be filed to close the contract with Vicon.

The detailed project budget summary is presented in Table 1.

Subject: RATIFICATION OF ACCESS AGREEMENTS FOR EXISTING MONITORING WELL SITES FOR FIRST HALF OF 2026

SUMMARY

Staff is submitting a summary of well access agreements executed under General Manager authority from January through June 2026 for Board ratification.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Ratify execution of well access agreements issued to OCWD for the period of January 1 through June 30, 2026 for a total cost of \$65,666.

BACKGROUND/ANALYSIS

Many OCWD-owned wells are located on properties owned and managed by other entities, including public agencies and private landowners. To perform groundwater monitoring and well maintenance at these well sites, OCWD acquires and maintains formal access agreements with the respective property owners. These agreements include short-term encroachment permits (typically six months to one year), longer-term license agreements, (generally five years or more), or permanent or semi-permanent property easements.

In the first half of 2026, 27 agreements were newly executed or renewed under General Manager authority, providing access to 220 well sites at a total cost of \$65,666. The primary reason for the cost increase above the budgeted amount was the acquisition of a 25-year easement at the Los Alamitos Joint Forces Training Base. The \$41,255 cost was less than if OCWD obtained two 10-year easements. A summary of the agreements recommended for Board ratification is presented in Table 1.

Subject: INVESTMENT PORTFOLIO HOLDINGS REPORT

SUMMARY

The District's monthly Investment Portfolio Holdings Report is provided for Committee review.

Attachment: Investment Portfolio Holdings Report dated June 30, 2026.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Receive and file the Investment Portfolio Holdings Report dated June 30, 2026.

BACKGROUND/ANALYSIS

The Investment Portfolio Holdings Report is a list of each of the District's fixed income investments and provides the market value at the end of each month. All securities within the District's Investment Portfolio are in compliance with the District's Statement of Investment Policy. The District's portfolio maturities provide cash liquidity sufficient to meet the District's projected six-month expenditures (as required by Government Code Section 53646).

Highlights of the current and previous report:

Description	Prior Month	Current Month
SWAP Value (in Citi's favor)	\$3,069,968	\$3,049,653
Required Collateral	None	None
Duration/Maturity	673 Days or 1.84 years	698 Days or 1.91 years
Rate of Return/Yield	3.749%	3.846%

- The yield on the one-year Treasury note as of the month end is at 3.98%; two-year at 4.14% and the five-year at 4.19%. The last Federal Open Market committee (FOMC) meeting was held on June 16-17, 2026. The FOMC maintained interest rates to the Federal fund benchmark interest rate range of 3.50% to 3.75%. This is the rate prime banks lend to each other.

Subject: **LIMITED-TERM EMPLOYMENT AGREEMENT FOR POSTDOCTORAL RESEARCH ASSOCIATE YUE (SOPHIE) SUN (RENEWAL)**

SUMMARY

Staff recommends the first one-year renewal of a limited-term employment agreement for a budgeted Postdoctoral Research Associate in the Research and Development Department. This will be the second one-year appointment for Yue (Sophie) Sun, Ph.D. The position will be funded via a combination of District funds and research grants.

Attachment: Limited Term Employment Agreement – Yue (Sophie) Sun, Ph.D.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Approve and authorize execution of Limited-Term Employment Agreement for Postdoctoral Research Associate Yue (Sophie) Sun for a one-year period commencing August 11, 2026.

BACKGROUND/ANALYSIS

The mission of the Research and Development (R&D) Department at OCWD is to conduct applied research that supports the District's objectives through innovation, technology evaluation, and development of new processes and methods. This is accomplished via collaboration with engineering firms, technology providers (whether mature corporations or emerging start-up companies), universities, as well as other water agencies.

The District's innovative approach to R&D includes a postdoctoral research program that serves to extend the R&D Department's capacity to conduct applied research. The program also provides postdoctoral researchers with real-world experience and training. A postdoctoral research associateship or fellowship is common at universities

and research organizations, functioning as a temporary research position held after a candidate has successfully completed their Doctoral (Ph.D.) degree.

Under the current R&D program, the tenure of any Postdoctoral Research Associate position is up to three years: an initial one-year appointment via a limited-term (at will) contract with the District, followed by up to two annual renewals contingent on satisfactory performance, availability of funds, and project life. In August 2025, Postdoctoral Research Associate Yue (Sophie) Sun, Ph.D. was hired following completion of her Ph.D. in Environmental Engineering from the University of Massachusetts, Amherst. She currently supports key projects in the R&D Department related to PFAS treatment. The renewal of Dr. Sun's agreement would begin her second year with the District.

As with her first year at the District, Dr. Sun's position will be funded via a combination of District funds and external grant funding. Her ongoing applied research projects are listed briefly below:

- OCWD-led pilot testing housed at Yorba Linda Water District's PFAS treatment plant to identify improved adsorption media for potential use by Producers in their PFAS treatment plants. Dr. Sun's focus is on emerging regenerable ion exchange (IX) products and other alternative adsorbents. This work is partially funded by a Water Research Foundation (WRF) grant awarded to OCWD.
- Pilot testing at the District's GWRS RO facility to identify best-performing adsorption media to remove PFAS from RO concentrate (ROC). GWRS ROC is discharged to the ocean via Orange County Sanitation Districts (OC San) outfall. This work is partially funded by a Water Research Foundation (WRF) grant to an engineering firm (Kennedy Jenks) with subaward to OCWD.
- Evaluation of a field-deployable water sampling device to rapidly screen adsorbable organic fluorine in situ as a proxy for total PFAS. This method was developed by Forever Analytical Services (FAS; start-up company spun out of University of Notre Dame, the District's original project partner). The work is partially funded by a US EPA grant to FAS with subaward to OCWD.
- Evaluation of supercritical water oxidation (SCWO) as a potential PFAS destruction technology to oxidize (destroy) the spent IX resin generated by Producer treatment facilities, via coordination of testing executed by technology providers. This work is funded by the District and via complimentary services from some of the SCWO providers.
- Host site and coordination for pilot-scale testing by Water Illumination (start-up company spun out of UC Riverside) of their vacuum ultraviolet (UV) PFAS destruction technology applicable to groundwater for drinking water supply.

- Evaluation of potential benefits of co-contaminant removal, namely disinfection byproduct (DBPs) formation potential, during PFAS treatment using adsorbents. Dr. Sun is collecting preliminary data to support a proposal to seek grant funding.

In the past year, Dr. Sun has been an excellent contributor to the R&D Department. She has quickly taken on several pilots and projects, coordinating with R&D staff, other District staff, and external collaborators and product vendors. Last year she gave an excellent presentation at the AWWA Water Quality and Technology Conference in Tacoma, WA; in the coming year she has had two abstracts accepted for platform presentations on her current OCWD R&D work (WaterReuse California in August and Western Groundwater Conference in September). Dr. Sun is also preparing to author four manuscripts for peer-reviewed scientific journals based on her current District projects and co-authoring at least one more.

Staff recommend renewing Dr. Sun's limited term employment agreement for an additional year based on good performance and ongoing project work to be completed in FY2026-27.

LIMITED TERM EMPLOYMENT AGREEMENT

(Yue (Sophie) Sun, Ph.D.)

THIS LIMITED TERM EMPLOYMENT AGREEMENT is entered into as of August 11, 2026 by and between the ORANGE COUNTY WATER DISTRICT, a political subdivision of the State of California (hereinafter, "OCWD"), Yue (Sophie) Sun, Ph.D. (hereinafter, "EMPLOYEE"), for the employment of EMPLOYEE by OCWD for the period commencing August 11, 2026 through the termination date as established in Section Three herein below, in accordance with the following terms and conditions:

SECTION ONE: EMPLOYMENT AND DUTIES OF EMPLOYEE

- 1.1 OCWD hereby employs EMPLOYEE, and EMPLOYEE hereby accepts employment from OCWD, in the capacity of Postdoctoral Research Associate, commencing as of August 11, 2026.
- 1.2 During EMPLOYEE's employment with OCWD, EMPLOYEE shall do and perform all services, acts or things necessary or advisable to fulfill the duties and responsibilities as directed by the District Research and Development Director.
- 1.3 EMPLOYEE shall work forty (40) hours per week. The EMPLOYEE may apply accrued leave hours towards satisfying the minimum hours worked.
- 1.4 Unless otherwise, the employment services of EMPLOYEE shall be performed at the offices of OCWD, located at 18700 Ward Street, Fountain Valley, CA; provided, however, that OCWD may require EMPLOYEE to travel temporarily to other locations to perform services for or on behalf of OCWD.
- 1.5 EMPLOYEE shall, to the best of EMPLOYEE's ability and experience, loyally and conscientiously perform all of the duties and obligations required of EMPLOYEE, either expressly or implicitly by the terms of this Agreement or the provisions of the OCWD Personnel Manual (hereinafter, the "Personnel Manual"), as adopted by the Board of Directors of OCWD and as may be

amended by the Board of Directors in its legislative discretion from time to time (copy of which has been provided to EMPLOYEE); provided, however, that in the event of a conflict between this Agreement and the Personnel Manual, this Agreement shall supersede and prevail of the Personnel Manual.

SECTION TWO: COMPENSATION AND BENEFITS

2.1 As of the date of commencement of employment as set forth in Paragraph 1.1, EMPLOYEE shall receive wages based on an hourly rate of \$40.57.

2.2 For and during the term of employment, EMPLOYEE shall be entitled to all of the benefits provided within the contract period and enjoyed by full-time employees of OCWD, as set forth in the Personnel Manual. EMPLOYEE acknowledges, however, that OCWD-paid layer two Money Purchase Plan retirement contributions vest to the EMPLOYEE only upon EMPLOYEE's accumulating five years of credited service, as defined in the retirement plan for employees of ORANGE COUNTY WATER DISTRICT.

SECTION THREE: TERM OF EMPLOYMENT

3.1 OCWD and EMPLOYEE hereby expressly understand and acknowledge that EMPLOYEE is employed by OCWD, for a period not to exceed one-year duration.

3.2 While OCWD and EMPLOYEE anticipate that the term of employment under this Agreement shall be approximately 1 year from the date of commencement of EMPLOYEE's employment pursuant to Paragraph 1.1 hereinabove, the actual date of termination of employment shall be determined by the completion of duties as determined by the District. In this regard, OCWD shall provide EMPLOYEE at least 14 days' written notice of the termination of employment due to the completion of duties.

3.3 Notwithstanding the provisions of Paragraphs 3.1 and 3.2 hereinabove, OCWD and, EMPLOYEE each reserve the right to terminate this Agreement and the EMPLOYEE's employment

with OCWD, at any time, with or without cause.

SECTION FOUR: MISCELLANEOUS

4.1 Effect of Personnel Manual: To the extent not inconsistent with the provisions of this Agreement, the Personnel Manual is incorporated herein by this reference and shall govern the terms and conditions of EMPLOYEE's employment with OCWD, and the employment relationship of EMPLOYEE and OCWD, in all matters not expressly set forth herein.

4.3 Integration: This Agreement, together with all of the provisions of the Personnel Manual not inconsistent with any of the terms and conditions herein, represents the entire understanding of OCWD and EMPLOYEE as to the employment of EMPLOYEE by OCWD; and this Agreement, as complemented by the provisions of the Personnel Manual not inconsistent with the terms and conditions contained herein, supersedes any and all other agreements and understandings, either oral or in writing, between OCWD and EMPLOYEE with respect to the employment of EMPLOYEE by OCWD. Each party to this Agreement expressly acknowledges that no representations, inducements, promises or agreements, orally or otherwise, have been made by any party, or any person acting on behalf of any party, which are not embodied herein, and that no other agreement, statement, representation or promise not contained in this Agreement or in the Personnel Manual shall be of any force or effect.

4.4 Construction and Amendment: This Agreement shall be governed by the laws of the State of California. This Agreement may not be modified, altered or amended except in writing signed by OCWD and EMPLOYEE.

4.5 Effective Date: This Agreement shall be deemed executed by the parties as of the date first above written.

**Subject: SURPLUS OF RESEARCH & DEVELOPMENT EQUIPMENT,
ADMINISTRATION BUILDING OFFICE FURNITURE, AND WAREHOUSE
OBSOLETE INVENTORY**

SUMMARY

Staff has determined that certain Research & Development equipment, Administration Building office furniture, and Warehouse obsolete inventory are irreparable or too costly to repair and are no longer necessary for use in District operations. The items listed below were removed from service and placed in temporary storage in the warehouse until approved for disposal.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Declare items on Surplus List as of June 25, 2026, surplus and authorize the sale and disposal thereof.

BACKGROUND/ANALYSIS

Below is a list of items recommended for surplus. The items listed are either outdated, parts are no longer available and cannot be serviced, or are inoperable.

The Research & Development equipment, Administration Building office furniture, and Warehouse obsolete inventory have either been replaced or are beyond economical repair. Disposal of electronic and office equipment will be accomplished by selling them through a public auction company, to private companies, or for scrap if deemed unsellable. Selling through a public auction company allows responsible disposition and repurposing of discarded items via surplus, which is a practical way to extend the lifecycle of District-owned property while maximizing the value of public-funded assets.

Below is a list of the surplus items as of June 25, 2026.

Subject: REQUESTED RATE INCREASE FOR RUTAN & TUCKER LEGAL FEES

SUMMARY

Rutan & Tucker (Rutan) is requesting to increase hourly billing rates to reflect inflationary and normal business cost increases that have occurred since February 2023 when rates were last adjusted. The proposed revised rates are \$360 an hour for routine legal services (attendance at board meetings, agenda packet review, advice regarding the Brown Act, CPRA and Political Reform Act, etc.), and \$405 an hour for special counsel type services.

Attachment: June 29, 2026 Letter from Rutan & Tucker, LLP

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting: Approve adjusted hourly billing rates for Rutan legal counsel services commencing on July 1, 2026 to \$360/hr for Routine Legal Services and \$405/hr for Specialized Legal Services.

DISCUSSION

Rutan and Tucker's hourly billing rates have not increased since February 2023. During the approximately three years since the last adjustment, the Consumer Price Index for All Urban Customers in LA/Orange County Region (CPI) has increased by approximately 12%. The revised rates, which are proposed at \$360 an hour for routine legal services (attendance at board meetings, agenda packet review, advice regarding the Brown Act, CPRA and Political Reform Act, etc.), and \$405 an hour for special counsel type services, correspond to the increase in the CPI for northern Orange County since the last Board approved rate adjustments in February of 2023. The current and requested rates, tied to increases in the CPI since the last adjustment, are shown in the following table.

Item	Current Rate	New Requested Rate effective 7/1/26
Routine Legal Matters	\$322/hr	\$360/hr

Specialized Legal Services	\$360/hr	\$405/hr
----------------------------	----------	----------

The revised rates proposed are intended to put Rutan in the same position as it was in February of 2023 when rates were last adjusted, and the proposed increases are a response to the significant increase in the cost of living that has occurred in Orange County since February of 2023. The proposed rates are comparable to, or lower than, rates charged by other water and wastewater agencies in Orange County and the Inland Empire. For comparison, approximate current rates for general counsel services at select water districts in the Region in 2026 are as indicated below.

Irvine Ranch Water District	Melded rate \$520/hour, with General Counsel at \$560/hour
Orange County Sanitation District	\$385/Hour for Routine services; \$480/Hour for Specialized Legal Services (with annual CPI adjustment)
Trabuco Canyon Water District	Between \$500 and \$600 per hour (with annual CPI adjustment)
Western MWD	\$360/Hour Routine; \$385/Hour Specialized Legal Services (with annual CPI adjustment)
Serrano Water District	\$390/Hour (with annual CPI Adjustment)

Subject: TEMPORARY SUSPENSION OF THE COMMERCIAL PAPER PROGRAM

SUMMARY

The District's current \$70 million Commercial Paper Program (CPP) requires a letter of credit (LOC). The LOC has been provided by Sumitomo Mitsui Banking Corporation (SMBC) since November 19, 2015, and is set to expire on September 22, 2026. SMBC has indicated it will not renew the LOC at expiration. Staff recommends temporarily suspending the CPP until needed and terminating the current LOC following Board approval, saving the LOC fee of \$244,160 annually. If reactivation of the CPP is needed, a new bank LOC could be obtained in 60 to 90 days through a Request for Proposal process.

RECOMMENDATION

RECOMMENDED BY COMMITTEE

Agendize for July 15 Board meeting:

- 1) Authorize execution of the Tax and Revenue Anticipation Notes (TRAN) in the aggregate amount of \$70 million, which is an amount that does not exceed 85% of the District's estimated uncollected revenues from July 1, 2026, through June 30, 2027; and
- 2) Adopt a resolution authorizing the execution and delivery of TRAN to support a possible OCWD commercial paper program from July 1, 2026, to June 30, 2027; and
- 3) Authorize the temporary suspension of the Commercial Paper Program following the termination of the current letter of credit with Sumitomo Mitsui Banking Corporation, following Board approval.

BACKGROUND

The District is required to have a LOC in place to support its commercial paper program as the commercial paper notes are payable solely from draws under the LOC.

The District's commercial paper program is currently backed by a LOC from Sumitomo Mitsui Banking Corporation. The SMBC LOC was issued on November 19, 2015, and subsequently extended to September 22, 2026, at a cost of 32 basis points (bps) or \$244,160 per year.

Sumitomo Mitsui Banking Corporation has undergone a strategic shift that has affected several of its teams, including Municipal Finance. As a result, SMBC is exiting the municipal finance business. SMBC continues to stand by its existing LOC commitments but cannot extend those facilities or enter new ones.

The CPP was established to provide flexible, low-cost financing for short-term cash flow needs. While the CPP has been used to buy two parcels of land in Anaheim to create recharge basins – Mira Loma at \$13.6 million in FY 2009-10 and La Palma at \$28.4 million in FY 2013-14 and purchase in-lieu water of \$40 million in FY 2017-18, there are currently no projected needs for the CPP in the short-term.

Staff recommends terminating the current LOC with SMBC on or after July 16, 2026, rather than maintaining it until its expiration on September 22, 2026. Also, executing the TRAN annually, in case the District needs to reestablish the CPP with a new bank, which would provide a new LOC if short-term financing is needed in the future. The annual cost to the District of issuing the TRAN has ranged from \$1,000 to \$2,000.

Historically, the District has issued the TRAN annually in support of its commercial paper program. The TRAN is issued by the Orange County Water District (OCWD) in favor of the OCWD Public Facilities Corporation ("Financing Corporation") to serve as collateral for the issuance of commercial paper from the Public Facilities Corporation in the name of the OCWD.

The TRAN is to be used to support the CPP, should it be reinstated via a new LOC, which can be used to bridge the financing needs for capital projects if necessary, and will assist the District in utilizing the most cost-effective financing strategy available. In addition, the CPP can be used to finance some of the District's large equipment purchases and water supply purchases should the need arise.

As required under Section 5852.1 of the California Government Code (the "Code"), attached are good faith estimates of the cost of the TRAN prepared by Fieldman, Rolapp & Associates, Inc., the District's municipal advisor.

If the new TRAN is approved by the Board and executed, staff will have the existing TRAN replaced. Commercial paper cannot be issued by the Financing Corporation without Board approval. Approval of the TRAN will only make this maximum amount of

commercial paper funding available to the District if needed, and a new LOC is obtained.

Temporary Suspension of the Commercial Paper Program

Administration and Finance Issues Committee

July 9, 2026

Temporary Suspension of the Commercial Paper Program

- OCWD currently has a \$70 million commercial paper (CP) program in place supported by a Sumitomo Bank Letter of Credit that expires September 22, 2026.
 - A letter of credit is required to support the CP program.
- Advantages of using commercial paper:
 - Generally lower cost than fixed-rate bonds
 - Flexibility to meet program demand – commercial paper may be used to fund capital projects or other purchases on a “rolling basis” (i.e., ramp up, pay down).
- The cost of the Sumitomo Bank Letter of Credit is \$244,160 per year.

Temporary Suspension of the Commercial Paper Program

- PREVIOUS USES OF COMMERCIAL PAPER:
 - FY 2009-10 - issued \$13.6 million of tax-exempt commercial paper to purchase Mira Loma Basin property
 - FY 2013-14 - issued \$28.4 million of tax-exempt commercial paper to purchase La Palma Basin property
 - FY 2017-18 - issued \$40 million of taxable commercial paper to purchase in-lieu water from MWD
- There is no outstanding commercial paper debt.

Temporary Suspension of the Commercial Paper Program

- Sumitomo Bank has advised the District that it is exiting the municipal finance business.
- Sumitomo Bank continues to stand by its existing letter of credit commitments but cannot extend those facilities or enter new ones.
- Staff does not see an immediate need to issue commercial paper and proposes to wait to find a new bank letter of credit when a need arises.
 - The District could find a new bank letter of credit within 60 – 90 days through a Request for Proposals process.

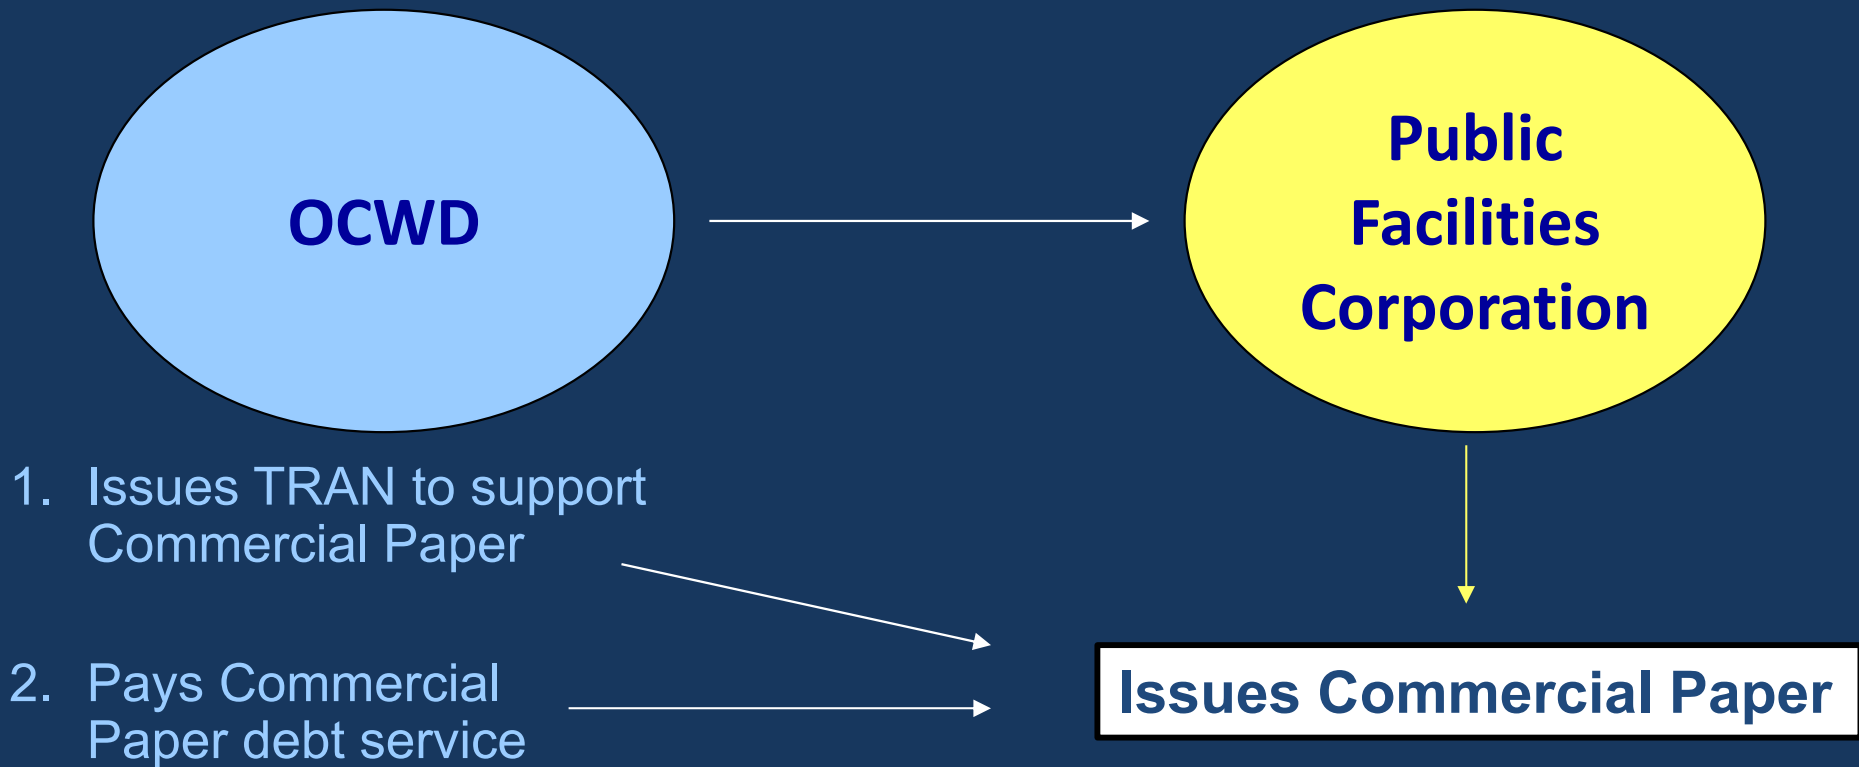

RENEWAL OF 2026-27 TAX AND REVENUE ANTICIPATION NOTE (TRAN)

- CURRENT STRUCTURE OF OCWD'S COMMERCIAL PAPER PROGRAM:
 - OCWD issues a Tax and Revenue Anticipation Note (TRAN) as security for the commercial paper
 - Public Facilities Corporation (PFC) issues the commercial paper on behalf of OCWD
 - OCWD agrees to pay the commercial paper debt service

RENEWAL OF 2026-27 TAX AND REVENUE ANTICIPATION NOTE (TRAN)

RENEWAL OF 2026-27 TAX AND REVENUE ANTICIPATION NOTE (TRAN)

- Current TRAN expires [October 1, 2026](#)
- Staff is proposing to suspend the Commercial Paper Program.
 - Saving the LOC fee of \$244,160 annually.
- In order to retain the option to reimplement the Commercial Paper Program during the fiscal year ending June 30, 2027, it is proposed to issue the TRAN to replace the expiring TRAN.

RENEWAL OF 2026-27 TRAN AND TEMPORARILY SUSPEND THE CP PROGRAM

STAFF RECOMMENDATION

- 1) Authorize execution of the Tax and Revenue Anticipation Note (TRAN) in the aggregate amount of \$70 million which is an amount that does not exceed 85% of the District's estimated uncollected revenues from July 1, 2026 through June 30, 2027; and
- 2) Adopt resolution authorizing the execution and delivery of TRAN to support a possible OCWD commercial paper program from July 1, 2026, to June 30, 2027; and
- 3) Authorize the temporary suspension of the Commercial Paper Program following the termination of the current letter of credit with Sumitomo Bank following Board approval.
