

January 25, 2007

Byron J. Bailey, M.D., F.A.C.S.
Past President
National Association of Physicians for the Environment
6410 Rockledge Dr., Ste. 412
Bethesda, MD 20817

Dear Dr. Bailey;

As you are aware, the Orange County Water District (OCWD) and the Orange County Sanitation District (OCSD) have been building the world's largest advanced water purification plant called the Groundwater Replenishment (GWR) System.

I am writing on behalf of OCWD and OCSD to thank you for your endorsement of this important local water project. Because water safety and public health are major concerns, your endorsement of the project helped us meet the challenge of gaining credibility and support from Orange County community organizations and key leaders. Your support for the GWR System is a valuable testament to the high quality of the water produced by the project and has been instrumental in the continuation of the project's development.

The GWR System is scheduled to be completed and operational in fall 2007 upon which we will be having a commissioning ceremony. We will alert you to the date of the ceremony; if you will be in the area we would be honored by your attendance. If you have any questions in the meantime, please feel free to contact me at (714) 378-3351 or rwildermuth@ocwd.com.

Thank you once again for your continued support.

Sincerely,

Ron Wildermuth
Director of Communications
Orange County Water District

January 25, 2007

Chris J. Wiant, M.P.H., Ph.D.
President & CEO
Caring For Colorado Foundation
