

# Construction Notice Bond Basin Storm Drain Repair

## ABOUT OCWD

The Orange County Water District (OCWD; the District) manages the Orange County Groundwater Basin underlying north and central Orange County that provides 77% of the water supply to 2.5 million people. To get water into the Basin, OCWD owns and operates a series of recharge basins, or percolation ponds, in Anaheim and Orange. Bond Basin, located in your neighborhood, is a part of OCWD's recharge system and is a critical component of the city of Orange's water supply and its access to groundwater. The region is fortunate to get most of its water from the Groundwater Basin, which provides a less expensive and more reliable source than imported water.

## ABOUT THE PROJECT

A storm drain within Bond Basin near the intersection of E. Bond Avenue and Hewes Street is damaged and in need of emergency repair. OCWD will construct a temporary repair to prevent further erosion during the winter months and a permanent repair will be constructed next summer. This project will ensure the continued availability of high-quality water supplies.

## WHAT TO EXPECT

- Your water supply will not be affected during construction.
- Work is scheduled to begin on or about November 14, 2022 and take approximately five weeks to complete.
- Work will be performed 7 am to 5 pm Monday through Friday with possible Saturday work.
- You may notice an increase in noise, dust, and truck traffic.

OCWD has secured all necessary permits and will comply with city of Orange noise ordinances. Access to the bike trail will not be impacted. For your safety, please avoid all construction areas and obey all local laws.

The District is committed to completing this project as quickly as possible. However, this timeframe could change due to inclement weather or other unforeseen circumstances. We apologize for the temporary inconvenience this project may cause and thank you for your patience as we work to maintain a high-quality water supply.

## COMMUNICATING WITH OUR NEIGHBORS

OCWD is committed to keeping our neighbors informed about the construction, the activities and the schedule. We will continue to communicate as necessary and will be available to answer questions or address concerns throughout construction.

## WHERE TO FIND MORE INFORMATION
