## NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

This is to inform the general public that the Orange County Water District (OCWD) proposes to adopt a Mitigated Negative Declaration for the following project:

**Project Title:** Orange County Water District Recycled Water Conveyance Improvement Project

**Project Description:** The proposed Project involves (1) the installation of a pipeline turnout and associated de-chlorination facility that would connect an existing pipeline that conveys purified water treated at the OCWD Ground Water Replenishment System (GWRS) to Burris Basin in the City of Anaheim, and (2) the modification of the existing operational protocol for releases of GWRS water into the Carbon Creek Diversion Channel. The Project is intended to provide a connection to the GWRS pipeline to allow flows from the pipeline to be diverted to Burris Basin where the treated GWRS water would blend with water diverted from the SAR through OCWD's upstream facilities.

**Project Location:** The GWRS Pipeline Turnout would be located in the southeastern portion of Burris Basin near the Santa Ana River. The physical improvements would be located approximately 700 feet north of the centerline of Ball Road and 2,000 feet east of the SR-57 freeway in the City of Anaheim. The Project site is located on USGS San Bernardino Meridian Quadrangle Map, Township 4 South, Range 9 West and Section 4.

**Public Review Period:** January 20, 2022 to February 21, 2022

The Mitigated Negative Declaration and Initial Study as well as all referenced documents will be available for public review at the Orange County Water District located at 18700 Ward Street, Fountain Valley, California and online at <https://www.ocwd.com/working-with-us/public-notices/>.
